UNIVERSITY OF MICHIGAN

STARTUP FAIR

HOSTED BY V1

November 16, 2022

Let's face it: recruiting is hard. As your company scales, you're looking to find ownership-driven, open-to-growth, and ambitious engineers, designers, and product managers. With over **400** candidates, **80+** interviews, and **20+** hires from last year's startup fair, we know how to bring high caliber students to your startups.

We're proud to host V1 Startup Fair on **November 16, 2022** here at the University of Michigan. This event is designed for your company to find high-quality candidates that will **translate into intern or full-time hires** available to start in the summer, fall, and winter seasons.

You'll have the chance to review resumes from vetted candidates and meet them at your **company's virtual booth**. In addition, we'll filter our attendees to find ideal matches for the roles you're hiring for, work with you to identify the ones that you're most excited about, and **suggest matches with candidates who are just as eager to meet you.**

Here's what you will be getting:

- 1. A virtual booth** for recruiters to answer questions and share information about your company
- 2. Pre-filtered** resume books with complete attendee information and suggested matches with top candidates
- 3. Opportunity to build your brand** with top candidates

Interested? Get in touch at v1startupfair@umich.edu
